Setting the standard in swine confinement heating for more than 40 years, L.B. White Classic pilot light heaters offer simple, reliable operation for years of worry-free performance.

Dependable, Economical Heat

A proven performer from gestation to finishing, L.B. White's Classic forced air heaters offer a wide range of heat outputs, safety features and installation options to fit your confinement needs:

- Highly efficient, pilot light design
- Choice of models
 - 60,000 Btu/h
 - 115,000 Btu/h
 - 170,000 Btu/h
- Choice of propane or natural gas
- Versatile indoor mount options

In addition, all L.B. White Classic heaters are available in certified models to meet or exceed U.S. and Canadian CSA safety standards.

Easy Operation, Low Maintenance Design

L.B. White Classic heaters are designed with easy installation and maintenance in mind. Each L.B. White Classic comes equipped with eyebolts and chains for easy hanging. Panels remove effortlessly for quick access to components and pilot orifices are easy to clean with our quick take-apart pilot assembly.

Durable Materials

L.B. White's Classic heaters are built to withstand the corrosive elements of even the toughest swine confinement operations. Sealed caps on the solenoid and pilot control fully protect gas valves from heavy dust, dirt and moisture. And the Classic's high quality, corrosion resistant components and solid case construction mean your L.B. White heater will provide years of reliable operation.

Knowledgeable, Friendly Technical & Customer Support

With over 50 years of heating experience and a full line of forced air and radiant heating solutions, only

L.B. White offers you the product quality, technical expertise and knowledgeable customer support you can count on to help you design the best heating solution for your needs.

For more information about how L.B. White Classic pilot light heaters can help you improve production and reduce costs,

please contact your local L.B. White representative or contact us directly at **800-345-7200**.

Classic™ Forced Air Heater Specifications

Model Numbers:	Classic 60	Classic 60N	Classic 115	Classic 115N	Classic 170	Classic 170N
Btu/h Rating:	60,000	60,000	115,000	115,000	170,000	170,000
Heater Configuration:						
Pilot Ignition	Yes	Yes	Yes	Yes	Yes	Yes
Fuel Consumption (max.):						
Liquid Propane Gas (lbs./hr.)	2.8	–	5.3	–	7.9	–
Natural Gas (cu. ft./hr.)	–	60.0	–	115.0	–	170.0
Heated Air Output (CFM):	250	250	480	480	700	700
Inlet Gas Supply Pressure:						
Propane min./max. (in.W.C.)	10.5 / 13.5	–	11.0 / 13.5	–	11.0 / 13.5	–
Natural Gas min./max. (in.W.C.)	–	7.0 / 13.5	–	7.0 / 13.5	–	7.0 / 13.5
Electrical Supply (Volts / Hz / Phase):	115 / 60 / 1	115 / 60 / 1	115 / 60 / 1	115 / 60 / 1	115 / 60 / 1	115 / 60 / 1
Amps (Starting / Cont. Oper.)	3.0 / 1.0	3.0 / 1.0	6.0 / 1.6	6.0 / 1.6	6.5 / 2.2	6.5 / 2.2
Cabinet Material:	Steel with Tri-shield Coating*	Steel with Tri-shield Coating*	Steel with Tri-shield Coating*	Steel with Tri-shield Coating*	Steel with Tri-shield Coating*	Steel with Tri-shield Coating*
Dimensions (in.):						
Length	21	21	23	23	24	24
Width	11	11	17	17	19	19
Height	24	24	24	24	30	30
Net Weight (lbs.):	55	55	90	90	110	110
